Secured Loan

VS

Unsecured Loan

SECURED VS. UNSECURED LOANS

When filling out the Loan Applications, Members question what type of loan should I check: Secured or Unsecured? Here's the difference:

Secured Loan is a Vehicle Loan that is backed by collateral: your car. The credit union is added as a lienholder on the vehicle.

Unsecured Loan is not backed by any collateral. Examples of an unsecured "signature" loan are debt consolidation, home improvements, medical debts, etc.

Visit our website for the Loan Application
